Sami Solow, Co-Captain
Morgan Ome, Business Manager

Cameron Chen, Co-Captain
Gracie Kober, Business Manager
Christina Wade, Advisor/Coach

The Iron Panthers have had a successful FTC season thanks to the generosity of our sponsors and donors. The funds provided to us by you and/or your business have enabled us to purchase the parts needed to construct our FTC robot and compete in two qualifiers. They have also helped us to enter into the 2015 FRC Silicon Valley Regional hosted in San Jose as well as the Sacramento Regional at UC Davis.

We successfully competed in two FTC qualifiers this year and won our first awards. One of the awards was the Think Award for demonstrating Gracious Professionalism and submitting an in-depth engineering notebook. The other award was the Connect Award, which is awarded to teams that have significant community outreach programs.

We are off to a great start in our current FRC build season. The Iron Panthers in conjunction with Woodside and Carlmont High Schools' team, the Wild Hats, hosted Kickoff. Ten local teams from around the Bay Area attended. Together, the students mingled and talked, discussed and shared as the new challenge was unveiled. The Iron Panthers were honored to help the Wild Hats host Kickoff and look forward to a incredible season.

We have grown in our second year, not only in members, but experience. This year we strive to get more involved in the robotics community to spread STEM awareness to students in our local community. Thank you for your continued support in our development as a second year team. The Robotics Team has inspired students throughout our campus to become involved in our programming, engineering and business oriented team. Our program thrives on the generosity of you and/or your business, and we look forward to expanding our program in the coming years and involving more students in this rewarding STEM team.
